General Information

Yaskawa Europe GmbH – Customer Price List 2026

Drives | Motion | Controls

Validity: 01 July 2026 – 30 June 2027

This price list is valid from 01 July 2026 until 30 June 2027 and supersedes all previous editions. All prices are quoted in Euro (€) ex works, excluding freight, insurance, packaging and any applicable taxes. Value Added Tax (VAT) will be charged separately in accordance with the applicable legal requirements and at the valid statutory rate. Packaging is non-returnable.

The supply of products and services is subject to the latest version of the General Terms and Conditions of Supply and Delivery of Yaskawa Europe GmbH, including the applicable addendum regarding extended retention of title.

While every effort has been made to ensure completeness, this price list may not contain all available products, product variants, or special configurations. Products not listed can be requested through the Sales Operations Team. Upon review, the required article and associated pricing information may be created and provided. For detailed information regarding the request procedure, please refer to the following guideline: [\[Link to How-to-Do / Request Process\]](#).

General Terms and Conditions

General Terms and Conditions of Delivery and Payment

1. Scope

(1) The following General Terms and Conditions of Delivery and Payment (the „GTCs“) shall apply to each order placed by the customer with us. They shall also apply to all future deliveries, performances or offers to customers even if not included again separately. If the creation and provision of computer programs is the object of a contract, our „General Licence Terms for the Provision and Use of Software“ shall apply as far as they contain provisions that are contrary to these GTCs. Apart from that, these GTCs shall apply.

(2) Any conflicting terms and conditions of the customer are hereby rejected; such terms and conditions shall only be binding if we have expressly agreed to them in writing.

2. Offers and Orders

(1) Offers made by us are non-binding until we confirm an order in writing. Samples and specimens are outline details only that are not binding to us.

(2) We shall be entitled to accept a customer's offer to enter into a contract within four weeks upon our receipt of the offer, unless the customer's offer provides otherwise. The scope of the delivery shall be as defined in our confirmation of the offer.

(3) Our acceptance of the customer's offer to enter into a contract must be in writing to be effective, facsimile and e-mail being sufficient.

(4) We shall be entitled to make partial deliveries as far as this is reasonably acceptable for the customer. A partial delivery is, in particular, reasonably acceptable if

- a) the partial delivery may be used by the customer within the scope of the contractually intended use;
- b) the delivery of the remaining ordered goods is ensured, and
- c) no additional expenses or costs are incurred by the

customer due to the partial delivery, unless we declare that we are willing to compensate such costs.

(5) Sample deliveries are considered to have been accepted by the customer subject to these GTCs after the expiration of the agreed time period, unless otherwise agreed in writing or the sample deliveries have been returned to us by the customer during the sample period.

3. Prices

(1) Our prices do not include statutory Value Added Tax (VAT) and are understood net ex works, excluding packaging, insurance, assembly, postage and delivery costs. This is without prejudice to clause 11.

(2) If on any given delivery date, which is at least four months after the date on which the contract was concluded, any changes should occur to the basis on which prices have been established (e.g. an increase in the price charged for raw materials, materials, wages, transportation or storage), we shall reserve the right to adapt our prices accordingly after informing the purchaser of this change. The price increase can only be asserted by us within two months after the occurrence of the price increases mentioned. The individual cost elements and their increase shall be given a fair weighting in determining any new prices. In the event that individual cost elements should increase whilst others decrease, this shall also be taken into consideration when determining the new price.

4. Terms of Payment

(1) The terms of payment shall be subject to the relevant arrangement between Yaskawa and the customer. The relevant point of time regarding the timeliness of a payment shall be the receipt of the payment by us.

(2) In case of any default in payment by the customer, the customer shall pay default interest accruing at a rate of 9 percentage points above the base interest rate p.a. In addition, we reserve the right to claim higher damages or assert further claims.

(3) The purchaser shall have no rights of set-off unless the purchaser's counterclaims have been established in a legally binding manner, or, admitted by us or they are undisputed. The purchaser may exercise a right of retention insofar as the purchaser's counterclaim is based on the same contractual relationship or the counterclaim has been accepted, decided by a court of law or is pending judgement.

5. Delivery

(1) All our delivery are free carrier from Yaskawa's warehouse or production site (FCA, Incoterms 2020), unless otherwise agreed.

(2) Unless agreed otherwise, periods agreed for our deliveries and performances commence on the receipt of our acceptance by the customer.

(3) Delivery dates and delivery periods shall only be binding upon an express and written confirmation by us.

(4) Deadlines are considered to be met if the goods have been delivered to the customer prior to the expiry of the deadline in accordance with FCA (Incoterms 2020) or other agreed Incoterms.

(5) We shall not be liable for impossibility of delivery or for delays in delivery as a result of events considered to be force majeure or of other events that were at the time of the conclusion of the contract unforeseeable (e.g. any kind of operational breakdowns, transport delays, strikes, lawful lockouts, shortages of labour, raw materials or energy supplies, epidemic, pandemic, difficulties in obtaining any requisite official permits, governmental actions), that we are not responsible for. In such cases we shall immediately inform the customer. If the force majeure event persists for more than six months, each party may rescind from the contract.

(6) The correct and timely self-supply shall be reserved. If we are unable to meet the binding delivery deadlines for reasons for which we are not responsible (non-availability of the service), we shall inform the customer of this immediately and at the same time inform the customer of the expected new delivery deadline. If the service is also not available within the new delivery period, we shall be entitled to withdraw from the contract in whole or in part; we shall immediately reimburse any consideration already paid by the customer. A case of non-availability of the service in this sense is in particular the failure of our supplier to deliver to us in good time if we have concluded a congruent covering transaction, neither we nor our supplier are at fault or we are not obliged to procure in the individual case. In this case, we

may also declare cancellation of the contract with regard to the undelivered goods if the performance period is extended by more than one month due to incorrect or untimely self-delivery.

(7) If the delivery of goods is delayed by us, we will use reasonable efforts to deliver the goods at a later stage at once.

(8) If the customer delays or fails to pick up the goods, we will charge a storage fee of 5 % of the purchase price for the goods, or alternatively the actual storage costs incurred.

6. Bearing of Risk

(1) Risk shall pass to the customer as soon as the goods are ready for dispatch and we have notified the customer in writing or orally about our readiness for dispatch, at the latest however if the goods have left our warehouse for delivery to the customer.

(2) Transport insurance shall only be concluded at customer's request and expense.

7. Reservation of Title

(1) We shall retain full title of the goods delivered until full payment of all current or future claims arising from the business relationship with the customer (the „Reserved Goods“).

(2) If the customer alters or processes the Reserved Goods, such work shall be deemed to be carried out on our behalf. Where the Reserved Goods are processed or incorporated with other products, we shall be the co-owner of the resulting products in the proportion of the value of the Reserved Goods to the value of the other products. This clause 7 shall apply to any such new product accordingly.

(3) The customer shall keep the Reserved Goods on our behalf in safe custody with the diligence of a prudent businessman.

(4) Subject to withdrawal, the customer may only use the Reserved Goods in the ordinary course of business and only resell the Reserved Goods subject to retention of title. Without our prior consent, the customer shall not be entitled to otherwise dispose of the Reserved Goods in a way that interferes with or otherwise endangers our rights in such goods, including, but not limited to, pledge or transfer as security.

(5) The customer shall immediately inform us in the event of any third party action against the Reserved

Goods or against any receivables assigned to us as security and to provide us with all documentation necessary to initiate third-party counterclaim proceedings. The costs of any such third-party counterclaim proceedings or any action required to otherwise redress such third-party action and to replace the Reserved Good shall be borne by the customer, to the extent not reimbursed by a third party.

(6) The customer hereby assigns to us all claims arising from the resale of the Reserved Goods or from the processing of the Reserved Goods, as security for the customer's current and future obligations arising from the business relationship between us and the customer. In the event that the customer resells the Reserved Goods to a third party together with other goods, the customer hereby assigns to us its purchase price claim in an amount of the value of the Reserved Goods. We hereby accept such assignment. As long as the customer complies with its contractual obligations, the assignment of the foregoing claims shall be treated as an undisclosed assignment. Subject to withdrawal, the customer is hereby authorised to collect such claims. In case of withdrawal, the customer shall, at our request, provide us with all information relating to the assigned claims and the debtors that are required to collect such claims by ourselves and shall inform the debtors of the assignment of such claims.

(7) We will not exercise our rights of withdrawal under clause 7(4) and clause 7(6) unless the customer is in default in making payments or unless an application to open a settlement or insolvency proceedings has been filed or the customer has suspended its payments.

(8) If and to the extent a reservation of title is not effective in the jurisdiction in which the contractual goods are located, it shall be deemed agreed that the customer provides us with a security that has the same or similar effect to a reservation of title. If the cooperation of the customer is required in order to create such security, the customer will, at its own expense, take all necessary actions without undue delay.

(9) The customer shall insure the Reserved Goods against theft, breakage, fire, water and other damage at its own expense.

8. Warranty

(1) To the extent that the products delivered by us and the performances rendered by us are defective, we shall, at our option, remedy such defects or arrange for a replacement delivery in accordance with the statutory regulations and the provisions of this clause 8. The customer may only rescind from the contract after two

attempts to rectify the defect have failed. Claims for damages exist only to the extent as set out in clause 9. Any replaced products and parts not already owned by us will become our property.

(2) Any claims in relation to defects will become time-barred 12 months after passing of risk for which there is limited liability in accordance with clause 9. In the case of an item that has been used for a building in accordance with its normal use and has caused its defectiveness, the limitation period shall only apply after five years.

(3) The customer is required to inspect each delivered product upon receipt without undue delay. Warranty claims shall be excluded if any objections as to the quantity of goods and as to defects identifiable by careful inspection are not notified to us in writing without delay upon delivery; the same shall apply to objections regarding hidden defects which are not notified to us without delay after its identification.

(4) If a notice of defects of the customer is unjustified, the customer shall reimburse all expenses that we have incurred due to the unjustified notice of defect, provided that it was its fault.

(5) A defective assembly or assembly service conducted by us shall not be deemed as a material defect under the rules for purchase agreements, but only as a defect under the rules for works agreements.

(6) Representations or guarantees shall not be deemed to have been validly given unless we have given them expressly in writing.

9. Liability for Damages

(1) Our liability – irrespective of the legal basis – is limited to damages that we or our legal representatives or vicarious agents have caused by wilful misconduct or gross negligence or, in case of a breach of essential contractual duties, by simple negligence.

(2) Essential contractual obligations include, but are not limited to, the obligation to render performance in a timely manner and without defects, as well as obligations to give advice, to protect and to exercise due care, which shall have the purpose to enable the customer to use the delivered goods according to the contract or to protect the personnel of the customer or third parties from danger to life and limb or customer's property from substantial damage.

(3) In cases of simple negligence, our liability is limited to damages which are typical in comparable cases and which were foreseeable at the time the contract was

concluded or, at the latest, at the time the breach of duty was committed, excluding any indirect damages.

(4) Claims for damages pursuant to the German Product Liability Act, due to guaranteed quality characteristics, or due to damage to life, body or health, shall not be affected by the above provisions.

10. Refusal of Performance

(1) If a contract is not performed due to customer's fault and in breach of contract, the customer shall compensate damages in the amount of all costs incurred by us, but in any event no less than 5% of the net value of the ordered goods, unless the customer can demonstrate that we incurred fewer damages. The same shall apply if we withdraw from the contract for this reason.

11. Special Conditions for Delivery and Assembly

(1) Costs for assembly, hourly rates, daily rates, travel expenses, other costs etc. can be taken from the current relevant price sheet for the related Yaskawa Division, respectively.

(2) Prior to the start of the assembly, all structural works must be completed to a degree that the assembly can begin immediately after delivery. The foundation must be completely dry and hardened and the rooms in which the assembly should take place must be sufficiently protected against weather, well-lit and sufficiently heated.

(3) The customer must procure at its own costs

- a) a sufficient number of auxiliary workers and skilled workers re-quired for the assembly;
- b) the devices and materials required for the assembly and operation; and
- c) the unloading of the railway wagons and the transportation of goods from the railway wagons, trucks or vessels to the place of assembly, free of charge. Delays of the assembly and operation that we are not responsible for shall be reimbursed by the customer in accordance with this clause 11. The risk of transportation for brought delivery parts shall be borne by the customer.

(4) The delivery period shall generally correspond to the delivery period specified in Yaskawa's offer accepted by the customer. However, it shall be extended

- a) in the event that, in order to deliver the respective delivery item in accordance with the contract, it is necessary to obtain an export licence which was not apparent to Yaskawa at the time of conclusion of the contract, in accordance with the relevant statutory provisions, by the duration of the relevant export licence procedure. This shall only apply insofar as Yaskawa initiates this immediately after conclusion of the contract and has fulfilled

all relevant procedural obligations completely and in a timely manner.

b) in the event that the contractual delivery of the respective delivery item requires the completion of an export licence procedure in accordance with the relevant statutory provisions, where the obligation to complete this procedure only arises upon notification of the obligation to complete the export licence procedure by the relevant authority/body, for the duration of the relevant export licence procedure. This shall only apply insofar as Yaskawa initiates this immediately after notification by the relevant authority/body to YASKAWA and has fulfilled all relevant procedural obligations completely and in a timely manner in this procedure.

Yaskawa shall inform the customer immediately after conclusion of the contract in the event of (a) the necessity of carrying out an export licensing procedure and in the event of (b) or immediately after notification by the authority/body. The above extension of the delivery period specified in sentence 1 shall not apply if Yaskawa has provided a delivery guarantee within the delivery period or has assumed a procurement risk equivalent to a guarantee within the delivery period.

12. Special Conditions for Works

The following conditions shall apply if the contract is a contract for work:

(1) Without undue delay after notification of the completion of the work, the customer shall conduct a test-run of the subject matter of the contract, test its compliance with the contractually agreed functionality and performance and – provided no defects occur, which have to be notified without undue delay – accept the work in writing towards us at the latest within two weeks. If the customer does not notify us of any defects within such two-weeks period, the work is deemed to be accepted, with the effect that the risk as to the performance for the work shall pass to the customer.

(2) At customer's request, we shall instruct and train the customer's employees on the handling of the work at the customer's location. In such case, the customer shall bear any costs for travelling, accommodation and allowance of our training personnel and provide – if necessary – training rooms and protective clothing in sufficient quantities, free of charge.

(3) In order to deliver any work on time, the customer must timely and duly comply with its contractual duties to cooperate. If the customer does not or does not duly comply with its duties, the delivery periods shall be extended by the period of delay.

(4) Detailed provisions in relation to the customer's duty to cooperate are set out in the respective underlying contract.

(5) Rights of the customer in case of defects after acceptance

a) If the work is defective, the customer may claim supplementary performance (i.e. remediation of the defect or performance of new work). The choice between remediation of the defect or performance of new work is in our option.

b) After the fruitless expiration of a time period set for the supplementary performance, the customer may remedy any defect himself and claim for the compensation of any requisite expenses, unless we were entitled to refuse a supplementary performance.

c) In case the remedy of defects fails, we unjustifiably refuse a supplementary performance or we do not provide a supplementary performance within a reasonable time period set by the customer, the customer may abate the remuneration or rescind from the contract and claim expenses without avail or claim damages in lieu of performance.

d) The customer does not have any claims with regard to defects caused by or resulting from improper operation or maintenance of the work or modifications to the work by the customer or any third party.

e) The customer's claims for defects of work become time-barred one year after acceptance of the work.

13. Confidentiality

(1) The customer shall treat all trade and business secrets which are disclosed to him during the performance of the contract as confidential and shall not disclose such trade and business secrets to third parties. This duty of confidentiality shall remain in force for a period of five years after the expiration of the contract.

(2) In the case that any Confidential Information is disclosed to any unauthorised third party due to customer violating any of the obligations imposed upon them under this Non-Disclosure Agreement, Customer shall be obligated to pay a contractual penalty in the amount of 50.000,00 EUR for each individual case of violation. The above shall not affect the right to assert a claim for any higher damages in relation to which any contractual penalty shall be offset.

(3) Reverse Engineering by observing, examining, dismantling, testing of the product covered under this agreement is prohibited. The prohibition of reverse engineering also extends to all other products made available by the respective party.

14. Rights to Work Results / Copyright

The customer shall have a simple, non-exclusive and non-transferable right to use the work results made in the scope of a contract (such as cost estimates, drawings, organisational analyses), to the extent that these are required for the utilisation of the work result in the course of the customer's business activities.

15. Data Protection

(1) Yaskawa Europe GmbH processes personal data only within the scope of order processing. In case of forwarding data within the Yaskawa Group, to authorized contracted partners or service providers, Yaskawa ensures the commitment of them to Data Protection. Transfers of data to external third parties only take place if such transfer is explicitly approved. Further information regarding Data Protection can be found under <https://www.yaskawa.eu.com/meta/privacy-statement>. The rights of the data subject can always be asserted with a notation "for the Data Protection Officer" to data-protection@yaskawa.eu.com.

(2) The customer, its directors or officers, employees, representatives or authorized contracted partners shall comply and will be contractually bound to store, process, transfer and delete all submitted personal data of Yaskawa Europe GmbH according to the European GDPR.

16. Final Provisions

(1) The customer shall be responsible for the full compliance with any applicable law, writs, rules, regulations and any regulatory actions and Yaskawa export control policies agreed with the customer and shall procure any permissions, licenses and authorizations and the compliance with any other statutory provisions that are necessary to conduct its business in compliance with the applicable law.

(2) The customer will refrain from export any of Yaskawa's products, which are listed in particular but not conclusively Annexes XI, XX, XXXV and XL of the Regulation (EU) No. 833/2014 and in one or more Annexes of the Regulation (EU) No. 765/2006, in particular but not conclusively in Annexes XVI, XVII, XXVIII and XXX, to Russia and Belarus or for the later use in Russia or Belarus. The Customer shall also comply fully with every subsequent revision of said Annexes or new Annexes which will be enacted by the European Union against Russia and Belarus or any other country which might be additionally sanctioned by the European Union due to the same purpose of the beforementioned regulation.

(3) If a delivery of the goods to certain countries or territories or to one or more consignees is not permissible or restricted due to statutory provisions or trade regulations and trade sanction applicable to goods of Yaskawa or Yaskawa's production sites or should such restrictions enter into force after the acceptance of an offer or during the delivery, Yaskawa reserves the right to withdraw from the contract at any time without a warning. Yaskawa in such case is not liable for any subsequent damages due to the withdrawal of such contracts.

(4) The place of performance is the place of business of the affected operating Yaskawa Division.

(5) The exclusive place of jurisdiction is the place of business of the affected operating Yaskawa Division. However, we are entitled to sue the customer in any other legal jurisdiction.

(6) This contract shall be governed by the non-harmonised law of the place of business of the affected operating Yaskawa Division. The application of UN sale of goods law (CISG) are expressly excluded from this contract.

(7) There are no oral side agreements to this contract. Any amendments and supplements to these GTCs must be made in writing to be effective. This shall also apply to any amendment of this written form requirement.

(8) Should a provision of these GTCs be invalid, this does not affect the validity of the remaining provisions. An invalid provision of these GTCs shall be deemed to be replaced by such valid provision that comes closest to the intended commercial purpose of the invalid provision.

(9) None of the provisions agreed in any of the terms and conditions are intended to alter the legal or common law distribution of the burden of proof.
